

Stay healthy and reduce the risk of infection from COVID-19 with a **KN95 three-dimensional protective disposable respirator face mask.**

Danterr supply the **KN95 protective respirator face mask** which gives greater protection than standard disposable surgical masks, reduces the risk of airborne disease transmission and offers high level protection from droplets and aerosolised agents.

KN95 protective respirator face mask is used for infection-avoidance by filtering out particulates from inspired air (when used correctly) to help decrease your exposure to COVID-19 and the flu.

Available individually wrapped in boxes of ten or as a carton, quantity is 1000 pieces.

Carton size is 55cm x 50cm x 40cm.

Change of mind refunds will not be available.
